### Q3 Was this your first Curriculum Institute event?

Answered: 69 Skipped: 0

ANSWER CHOICES	RESPONSES
Yes	31.88% 22
No	68.12% 47
TOTAL	69

#	IF YES, PLEASE LEAVE A COMMENT REGARDING YOUR EXPERIENCE.	DATE
1	Information regarding current issues affecting our colleges was presented in a way that provided participants with tools and/or knowledge to work towards effecting change at their campus. It was a great summer professional event to assist participants gear up for the upcoming academic year.	7/28/2023 6:39 AM
2	Curriculum institute is always awesome!	7/27/2023 8:53 AM
3	Some events were great for first time folks, like general info sessions on AB's because these were new to everyone, but there didn't seem to be anything specifically for people new to curriculum. I was recommended to go to the AO meeting and that was way out of my league and full of insider knowledge/terms. An intro session on the first day would be helpful (e.g. a "what you dont know that you need to know" and how to navigate the sessions as a newb).	7/26/2023 2:53 PM
4	The location was excellent. The convention center is a pleasant location and the food was accessible. The coffee never ran out. I did not attend the Thursday reception. It seemed like a big lift to return after such a long gap of time from the last session.	7/26/2023 2:01 PM
5	I think that every morning should start with a general session and then just have free time for lunch.	7/26/2023 10:58 AM
6	This was generally helpful. Some of it felt like the presenters could have more clearly presented instructions.	7/26/2023 10:47 AM
7	Love that your offering virtual options.	7/26/2023 10:15 AM
8	This was a really great experience. The variety of options for pannels was well balanced and the overall setting was great.	7/26/2023 10:08 AM
9	Overall it was a great opportunity to network and learn new information, but as someone who is a recent hire into this field, it was a bit overwhelming. There were definite feelings of imposter syndrome as I would sit in sessions and presenters would skim over content in their slides because they said "everyone should know this so I will move on" but as a new person in this world, it was hard to keep up at times. Especially with all the acronyms as well. I think it would	7/26/2023 9:51 AM

## 2023 Curriculum Institute Survey

be a good best practice for presenters in all presentations to not assume we all know all this information. Another suggestion could be to make the pre-session longer for new people if the worry is that presenters would be going over information that is redundant to those who have been here longer. In this longer pre-session you could maybe provide a dictionary of acronyms and common terms used, a cheat sheet of new/current laws and regulations in place. It would be helpful to have these resources as a new person.

10	I learned a lot that helped me piece together things I have already learned on the job.	7/26/2023 9:23 AM
11	I planned on attending in person however, life had other plans. I was very glad that the hybrid option was available as I was still able to attend virtually. The only thing I would say could be improved is the audio. Some speakers had a soft voice and were difficult to hear.	7/26/2023 9:05 AM
12	Thank you so much for providing full access to all the recordings/PowerPoint. It's not always possible to attend every session you want to attend and now I can watch on my own time. As a specialist, I enjoyed the more technical sessions and appreciate the mention of having more opportunities for us to interact with the Chancellor's office and learn how to implement the topics that are being spoken about at the conference.	7/26/2023 8:07 AM
13	The event was well executed, but because some legislation has passed but not implemented as yet, I felt that some of the sessions left more questions than answers. This of course is not the fault of the event planners, but it makes it hard to accurately assess the overall value of the event. The one session that I do feel needs major adjustments is the student panel general session. I felt 2 hours was just too long. I appreciate the student experience, but that session should have been no more than an hour, allowing for more time to address pressing issues such as AB 928/Cal-GETC, AB 1111 in a general sessions format that is much longer allowing more large group input and voicing of concerns. I appreciate the small breakout sessions that allow for targeted conversations, but for these types of bills that will definitely affect everyone, longer general sessions would be better served.	7/26/2023 8:03 AM
14	Attending my first Curriculum Institute event was a truly transformative experience that left a lasting impact on my professional growth and development. From the moment I walked into the conference venue, I was immediately taken aback by the professionally organized and well-executed nature of the event. The choice of diverse and knowledgeable speakers ensured that each session presented innovative ideas and strategies that could be implemented within my own curriculum design. Engaging in thought-provoking discussions with educators from various backgrounds allowed for an exchange of perspectives, challenging me to think critically about my own instructional practices. The range of workshops and breakout sessions offered provided a comprehensive overview of cutting-edge developments in curriculum design and assessment methods that will undoubtedly enhance my teaching techniques. Overall, this first Curriculum Institute event surpassed all expectations, leaving me inspired, motivated, and armed with valuable tools to advance my professional trajectory as an educator.	7/26/2023 2:52 AM
15	The information I was able to take back to my peers was great and timely too. I am looking forward to the possibility of presenting at a future conference. Very glad I attended! Huge thanks for making this virtual too. Although it was a little tough being on the computer all that time, it was well worth it. The platform was easy to navigate and join the different sessions too. Well done!	7/25/2023 9:48 PM
16	I'm grateful to have been able to attend remotely. My involvement with curriculum design is currently pretty marginal, but I found a lot in this year's event to apply to my work and I was inspired to move into new areas of curriculum work as well.	7/25/2023 8:56 PM
17	It was a bit like drinking from a fire hose. A few sessions focusing on curriculum fundamentals--very, very -basic-fundamentals--would be welcome.	7/25/2023 7:51 PM
18	This was my first time attending CI (and attending virtually). The tech/bandwidth issues were somewhat frustrating, but I appreciated that the crew on site eventually resolved the issues. It was a great event to keep up with recent developments and changing laws/regulations to keep track of.	7/25/2023 6:07 PM
19	Eighth Institute	7/25/2023 5:58 PM
20	I am so thankful that this conference exists. Thank you for all of the work it took to put it together! As a newly tenured faculty member and new C&I rep on my campus, I learned a lot of valuable information at the Curriculum Institute that was entirely new to me. Unfortunately, many of the presenters and session topics seemed aimed at seasoned curriculum experts. Many acronyms were not defined or explained. There were many comments like "You already	7/25/2023 5:56 PM

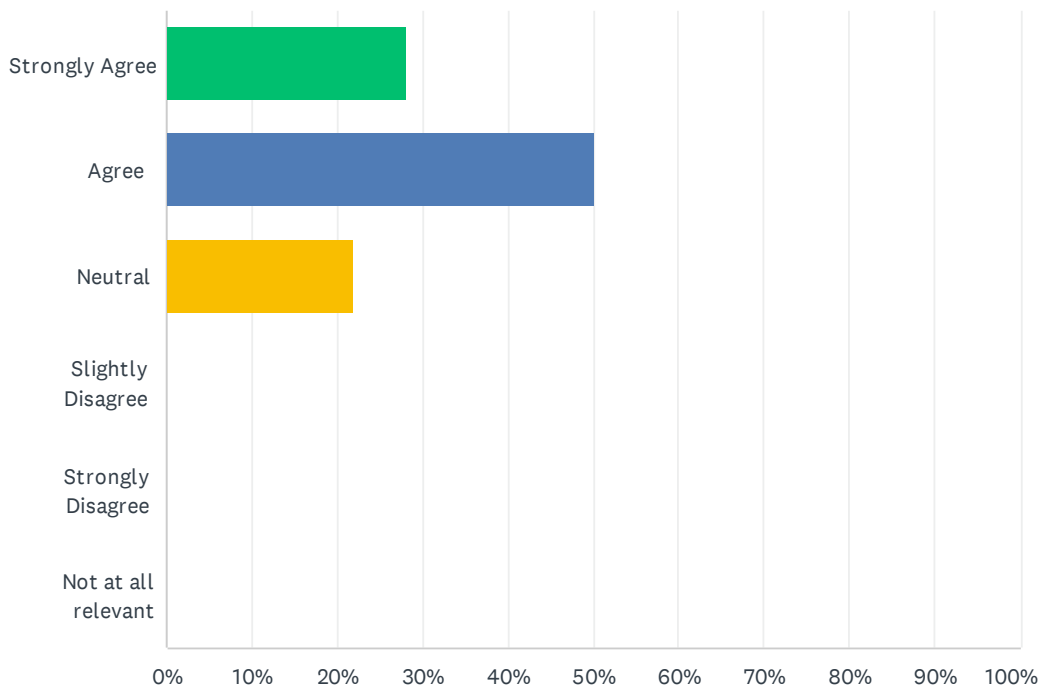

## 2023 Curriculum Institute Survey

know this" or "This is probably old news to you." It felt like I had to expend more energy than seasoned folks to figure out what was going on when it could have been explained as it was discussed or presented. Presenters should not be permitted to present on Zoom, especially if their faces are not going to be shown during their presentation. One session felt like having voices from the sky with no context of who was talking or humanizing elements. That session also did not enable captions until I asked. Every session I attended had multiple distracting issues with tech that were probably frustrating to folks on both sides of the screen. If Zoom is used for audience participation, folks should only be able to put questions into the chat box. "Unmuting" was an issue and it killed the energy in the room where the talk was happening. Perhaps a compromise could be encouraging attendance in person and then recording it to share with folks after the event has happened who have registered to receive the recordings.

21	Very well organized; classes were very informative; learned a lot and enjoyed myself as well.	7/25/2023 5:23 PM
22	The student panel participants only represent a small percentage of our student population. Please consider featuring students who are more representative of the students that we serve--the part-time students, parents juggling parenting responsibilities, the returning student, DACA, veterans, students with disabilities, ESL students, EOPS students, career education students, etc.--students who are going to be vocal about what they need from us. The overachievers are just going to tell us what we want to hear. I understand that some of the students that I mentioned may not be able to afford to take a day off of work or pay for day care to be on a panel here; pay them and provide their travel expenses so that they can afford to be here.	7/14/2023 2:47 PM
23	It seemed like the Institute was experiencing issues with connectivity that was causing issues with the sessions and virtual participants were missing some of what is being said. Consider having hard network connection and not wireless maybe? Recommend doing audio testing at least 10 minutes prior to sessions - those that did, the sessions started on time. I like that some of the sessions, the presenters were really good at reading and answering the questions from the online participants. For an online conference, the experience was really well. I hope this type of modality will continue.	7/13/2023 12:35 PM

## Q12 Why were those breakout sessions most impactful?

Answered: 38 Skipped: 31

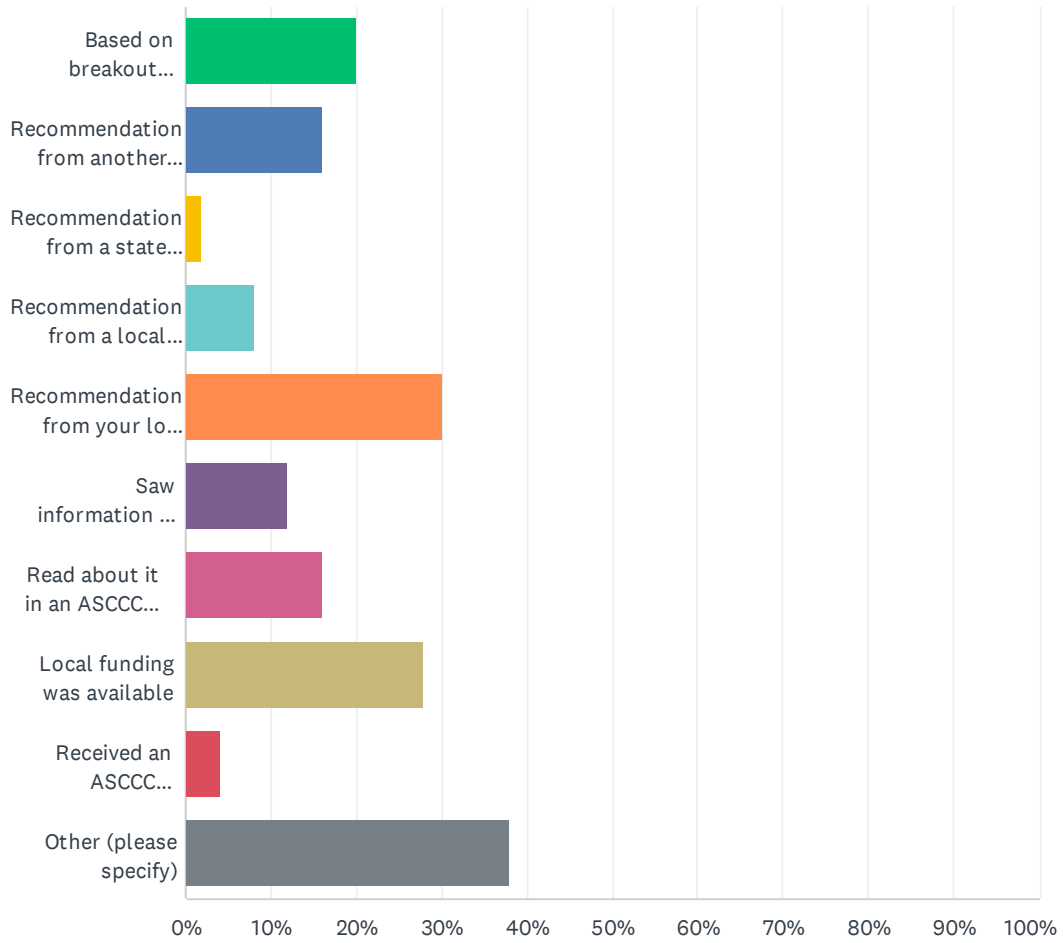

#	RESPONSES	DATE
1	It was great to learn all the new updates and hear what other colleges are doing.	8/5/2023 8:51 AM
2	Being a chemistry instructor, we have had issues with the AST only being 60 units since our calculus courses are 5 units each. The fact that ASCCC and the CCCC are starting to address these issues hopefully will help our students with the seamless transfer.	8/3/2023 3:34 PM
3	New ideas and best practices shared	8/1/2023 1:56 PM
4	The information was well-presented and relevant.	7/31/2023 2:36 PM
5	They were impactful in that they gave me information that was new and that I can relay to the rest of my faculty	7/31/2023 12:09 PM
6	Relevant to my work.	7/31/2023 10:09 AM
7	Each session provided comprehensive information on the topic discussed	7/28/2023 6:41 AM
8	These are topics that are critical to my role as an administrator. I wish there was more depth covered in these topics and for the SEM and Accounting Methods breakouts, I wish there were more examples/problems/handouts provided. In sort, I would like to see the sessions introduce practical components.	7/27/2023 1:07 PM
9	Having the breakout sessions for curriculum specialist on what we do is always helpful. Its great to hear what others are doing and how we can update our systems and processes to be more friendly. Knowing what is coming down the line and what has arrived that we have to work on this upcoming year is awesome!	7/27/2023 8:55 AM
10	Focused on the logistics of curriculum - as a curriculum specialist, sessions covering what changes are coming, and the work that will be involved.	7/27/2023 8:09 AM
11	They were self selected, so I had an interest in the topic. The workshops were well structured, and the presenters were very knowledgeable and effective.	7/27/2023 12:39 AM
12	They presented information that was new or presented in a new way. Information was detailed, backed by examples, and relevant to current topics in Curriculum.	7/26/2023 7:31 PM
13	We were invited to participate and the presenters used integrative technology and/or breakout rooms for smaller discussions where we could provide input and ask questions.	7/26/2023 4:58 PM
14	This work cannot be effectively done alone by districts, there are unanswered questions and factors beyond our control that influence outcomes	7/26/2023 2:04 PM
15	Accreditation, legislation, and CCCC Updates are the most important things I need to be focusing on so that I can have a better idea of what to expect in the near future.	7/26/2023 11:01 AM
16	They were offered virtually and we had a good amount of information with time for questions.	7/26/2023 10:17 AM
17	Because they addressed topics that were high on my priority list for information.	7/26/2023 10:12 AM
18	As a staff person (vs. faculty), not all of the breakout sessions are relevant to me, so I'm already selecting from a more limited list. Additionally, my colleagues and I do a pretty good job of keeping each other very up-to-date on what's going on state-wide regarding curriculum (e.g., proposed/passed legislation, updates to Title 5, various initiatives), so this narrows down the list even more. Updates to the PCAH: although I've already been using the new PCAH and technical manual pretty regularly, there were some tidbits which I didn't know - for example, the document noting changes between the new edition and the previous. CCCC COCI Q&A Listening Session: any session related to COCI is always the most relevant to me, as I'm the submitter for my college. Rachel and David are super helpful and do a great job of outlining recent and upcoming changes to the system, as well as addressing our questions.	7/26/2023 10:08 AM

## 2023 Curriculum Institute Survey

19	Of all the sessions I attended the one that was most helpful to me was the Articulation Adventure Ahead. Mark is great at delivering content, engaging participants, and is very personable. As a new AO this session provided real case studies that may come up for me in my role and really broke down what I can expect in this position	7/26/2023 9:54 AM
20	They covered topics I wanted to learn about.	7/26/2023 9:25 AM
21	The session on CBE and CPL was most impactful as they didn't spend the first 30 minutes going through basics that everyone already knew. They got right into the meat and potatoes of the topic.	7/26/2023 8:57 AM
22	As an Evaluator, these sessions directly affect the way that I perform my job with regards to implementing programs into our data system (PeopleSoft), and with how we assure students are well informed, so they are able to be successful in their educational endeavors.	7/26/2023 8:14 AM
23	These are the most relevant to my position.	7/26/2023 8:09 AM
24	Anything relating to COCI or the PCAH is critical to my work as a curriculum specialist (among other duties). The 928 session was also good as it went deeper than the general session even if it was limited in terms of scope due to still waiting for the details to be finalized.	7/26/2023 8:01 AM
25	A lot is changing in CA legislation, and it can be rough to keep track. These sessions helped provide more context and interpretation.	7/26/2023 7:42 AM
26	A ton of useful information and ability to make connections with other college staff.	7/26/2023 7:38 AM
27	The sessions presented relevant material to what is occurring at my campus, especially being a department chair for a non-credit program. The sessions about legislation and different processes was very helpful to learn about the "why" of the things I do as a Chair.	7/25/2023 9:52 PM
28	I am involved in our campus' version of a cultural curriculum audit. I also work in Composition, so those three sessions were absolutely central to what I'm doing.	7/25/2023 8:59 PM
29	These are the issues we are dealing with on CCC campuses currently.	7/25/2023 8:44 PM
30	They addressed practical issues related to curriculum--the more theoretical and abstract sessions were less useful.	7/25/2023 7:54 PM
31	Learning about new information from the CCC Chancellor's office	7/25/2023 7:26 PM
32	Discussion based on emerging changes	7/25/2023 7:20 PM
33	Keeping in touch with colleagues who are interested in/keeping track of the same topics I have been tracking.	7/25/2023 6:14 PM
34	Easy to understand and most relevant to me	7/25/2023 6:01 PM
35	These three topics seemed like ones that needed conversation. Other topics are ones I could have Googled or watched a quick video online, such as "Updates to the PCAH." Some sessions felt longwinded, but these three sessions felt supportive and like community building with colleagues from all around the state.	7/25/2023 5:59 PM
36	They directly relate the curriculum specialist's needs and updates for information.	7/25/2023 5:45 PM
37	Amazing insight into current and upcoming changes, ideas for collaboration and application of policies, and more.	7/25/2023 5:42 PM
38	immediate relevance; oriented around meeting compliance requirements; providing support for challenging implementations	7/25/2023 5:20 PM

## Q18 How likely are you to attend the Curriculum Institute event again in the future?

Answered: 51 Skipped: 18

ANSWER CHOICES	RESPONSES	
Extremely likely	60.78%	31
Very likely	21.57%	11
Somewhat likely	9.80%	5
Not so likely	7.84%	4
Not at all likely	0.00%	0
<b>TOTAL</b>		<b>51</b>

## Q19 What topics would you like to see at a future Curriculum Institute?

Answered: 27 Skipped: 42

#	RESPONSES	DATE
1	Noncredit, enrollment	8/5/2023 8:52 AM
2	UCTP and STEM	8/3/2023 3:55 PM
3	Topics that fall under the 10+1 and other requirements of academic senates/curriculum committees in EDC and Title 5	8/1/2023 1:12 PM
4	More in depth information on CPL and baccalaureate programs	7/28/2023 6:42 AM
5	Strategic enrollment management, accounting methods, BDP, updates on legislation, integration of guided pathways, AB 1705/STEM implementation, COCI updates	7/27/2023 1:11 PM
6	More student voices, on a variety of topics.	7/27/2023 12:40 AM
7	Updates on new and proposed legislation Workshops on integrating DEI work into Curriculum processes (workshops, not presentations) Updates 705/1705	7/26/2023 7:33 PM
8	More on CPL and how it impacts Arts & Humanities courses.	7/26/2023 5:00 PM
9	Intro session/orientation for folks new to curriculum. Maybe a listening session with UC articulation officers?	7/26/2023 3:00 PM
10	I would like legislators proposing these curriculum legislation pieces to be invited and to attend these sessions to hear the conversations/issues/trends that are happening around curriculum. I would like legislators to talk about what they are doing to help the situation and the CCCC (they are CONSTANTLY understaffed)	7/26/2023 11:20 AM
11	I think that the folks organizing the Curriculum Institute always do a great job of offering a good balance of topics, and I can't come up with any suggestions. I will advocate for there always being a breakout session about COCI, with Rachel and David!	7/26/2023 10:10 AM
12	Chat GPT and related topics and how it is impacting curriculum. I heard an article on NPR the other day that professors teaching in the legal field have had to completely change the way they teach and their curriculum in light of AI advances.	7/26/2023 9:02 AM
13	More on Work Experience, since it should be chaptered by next year and guidance out. Updates on AB 1111. Updates on AB 928, esp TMC revisions and course GE submission. More on student experience and sessions that include students. More practical information and examples on the implementation of DEI in instruction with an emphasis on curriculum committee work.	7/26/2023 8:58 AM
14	More technical sessions that are tailored to curriculum specialists	7/26/2023 8:52 AM
15	AB 928 and 1111 will be obvious topics once we know more about them. That said, I'd like to see some topics that go into how colleges have specifically tackled problems, such as their curriculum cycle, how their curriculum committee actually functions (subcommittees, fast-track approvals, etc.), and other such "in the weeds" topics. Having attended for years, I don't need a primer on non-credit or other basic topics, and while there are always new attendees who need this information, the regulars have likely moved beyond many of these topics and might be more interested in day-to-day functions and how their colleagues at other colleges have improved efficiency, increased productivity, and specifically have implemented many of the topics that are covered in a more generalized fashion.	7/26/2023 8:16 AM
16	Important topics to cover in General Sessions: Common Course Numbering; Cal-GETC; Issues/Success of the implementation of 1705/705.	7/26/2023 8:15 AM
17	More information that affects classified professionals would be extremely helpful. Specific topics are not currently coming to mind.	7/26/2023 7:39 AM
18	Different types of sessions about non-credit programs for other students, in this case the Life-	7/25/2023 9:54 PM

## 2023 Curriculum Institute Survey

	long learner.	
19	I'd like to see the ASCCC tackle equitable grading to see where the boundaries are for what can be done. I'd also like to see a session on Linguistic/Grammatical Diversity.	7/25/2023 9:03 PM
20	Practical how-to sessions on how to approach curriculum.	7/25/2023 7:58 PM
21	Discussion should be on FTE release for curriculum chairs. Over the past 10 years serving on curriculum, with the last few years as a chair, the amount of work we are asked to do is increasing at a rapid pace with all of the legislation and title 5 changes. My district is compensating me at the same rate as they did before AB 705. This is not sustainable, and folks, good folks, will not continue to serve. We need to address (possibly with Union presence) this real workload management) at the ASCCC level.	7/25/2023 7:31 PM
22	More on CalGETC	7/25/2023 7:27 PM
23	Regular cycle of curriculum review and update - challenges and best practices?	7/25/2023 6:15 PM
24	More sessions focusing on trauma-informed curriculum, common course numbering, how to create new courses (best practices), and other topics that newbies like me should know.	7/25/2023 6:05 PM
25	Career ed and online	7/25/2023 6:03 PM
26	Continued discussion of best practices when it comes to the unprecedented changes; collaboration and Q&A with peers/colleagues; continued focus on DEIA and best practices, what is working for others to reach these imperative goals.	7/25/2023 5:46 PM
27	Sessions that address legislative mandates and current updates/changes, such as for Common course numbering updates, AB 928, etc.	7/25/2023 5:25 PM

## Q20 Do you have any other comments, questions, concerns, or suggestions for improvement?

Answered: 24 Skipped: 45

#	RESPONSES	DATE
1	The hybrid aspect is unpredictable. It took nearly 30 minutes for one session to begin due to technical issues with streaming the presentation. I did hear that there were multiple sessions with the same issue. Advise presenters that it is ok to say, "I don't know" or "does anyone here have the answer?" or "Let me follow up on that.". There was some misinformation communicated in at least two sessions by some presenters. In one session, the other presenters were put in a precarious position of having to contradict their co-presenter.	8/1/2023 1:12 PM
2	Please move the institute to northern California. The institute used to be south one year and then north another year. Please go back to that. It is a hardship for those up north that have to bare the expense of traveling every year.	7/31/2023 10:43 AM
3	In general, the powerpoints are a good resource, but I would appreciate handouts/working papers that attendees can work on during the sessions with the experts present. There are always sessions that I would like to attend but can't because another session is at the same time. For some of these critical topics, it would be good to offer them during more than one time slot.	7/27/2023 1:11 PM
4	There was mention on training CS during the ASCCC Plenary session but I did not know that that event was for CS. I thought it was more for faculty and Academic senate.	7/27/2023 8:58 AM
5	I was put off by one presenter who spoke to the group like we were children. Other presenters had a more professional and formal approach which I could appreciate.	7/26/2023 5:00 PM
6	The outdoor reception in the sweltering heat not the best choice. I do not know how it turned out as I did not go.	7/26/2023 2:06 PM
7	Thanks for all the hard work and prep you put in.	7/26/2023 11:20 AM
8	Keep it virtual please.	7/26/2023 10:19 AM
9	Even though I said I'd have attended in-person if that had been the only option, I do really appreciate that y'all continue to offer the virtual option.	7/26/2023 10:10 AM
10	The zoom connection on Thursday was challenging and left me wishing I was attending in person. The connection would freeze and the presenters didn't seem to notice where the cameras were. I really appreciated the moderators who brought in questions from the remote attendees.	7/26/2023 9:27 AM
11	I am new to this conference and I found that so much of the information presented in the breakouts was very basic. They all spent a lot of time going through basic definitions and descriptions. They could first take a pulse of the attendees to see what their level of knowledge is. It seemed like the best information was always crammed into the last 15 minutes. I do appreciate their time and efforts, but want to be honest.	7/26/2023 9:02 AM
12	The Chancellor's Office session was disappointing. They didn't seem well prepared. The focus on submission also didn't seem right for a general session. Recording the sessions so that we can see additional sessions that we were unable to attend is a great benefit. Riverside is a great venue. In the past the location used to switch between north and south, but the northern location was not sufficient in size or surrounding amenities like restaurants, etc. I hope we don't go back to that site.	7/26/2023 8:58 AM
13	Please retain the hybrid option. While I prefer to attend in person, I could only attend this year because of the hybrid event. I greatly appreciate the time and effort ASCCC staff and presenters expended to allow us online folks to participate in the event. Also, while I know the event has been held at the Riverside Convention Center for the last several years (virtual-only not withstanding), this is a great location. I appreciate that the location is always well cared for,	7/26/2023 8:16 AM

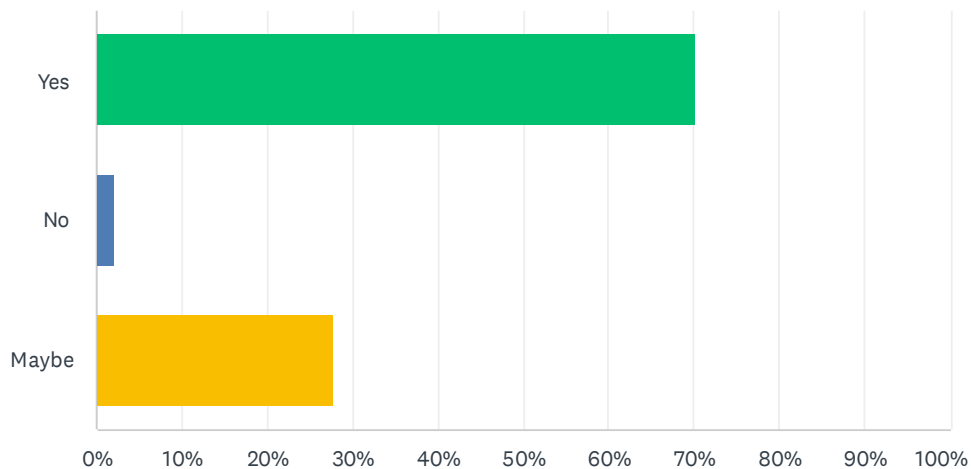

## 2023 Curriculum Institute Survey

hotel stays are within walking distance, and dinner/entertainment options are literally just down the street.

14	Great job overall!	7/25/2023 9:54 PM
15	Though I am very grateful the Institute was hybrid this year (thank you!!!), there is still some room for improvement on the virtual side. Sometimes mics were muted, cameras were misplaced--or left off--and in almost all the sessions I attended it was difficult or impossible for remote attendees to ask questions. Please continue to offer the hybrid model--things got better as the Institute progressed, and I'm sure improvements will be made in future years, too. :)	7/25/2023 9:03 PM
16	The more focused on practicalities, the better--general philosophizing on the importance of curriculum, etc., are not especially helpful..	7/25/2023 7:58 PM
17	The Zoom attendee experience was a disappointment with all the audio glitches. I realize the schools are covering the cost, but for \$450.00 to attend on Zoom, there should be a little 'dress rehearsal' for the audio.	7/25/2023 7:31 PM
18	None	7/25/2023 7:27 PM
19	Thank you!	7/25/2023 6:15 PM
20	Please ensure that all presenters are aware of turning on captions and use a microphone for accessibility purposes. Encourage presenters to find more engaging ways to share their knowledge than reading off their PowerPoint slides. Faculty should be teaching faculty the same way we would want them to teach our students: with memorable activities and effective engagement. Have fewer speakers per panel; many speakers did not get the chance to speak because other panelists "took" their colleagues' time. Provide non-dairy options at lunch and coffee stations. Assign seating (and rotate each meal) for the hosted meals. As an extremely extroverted person, I was so overwhelmed to enter the dining hall and not know one person (all of my campus colleagues attended online). One reason I wanted to attend in person was to network and learn from others; make that easier for those of us who want to meet new people. Maybe some tables are labeled as "meeting new folks" so those of us alone can find each other? THANK YOU for all of the work it took to put on a great conference. I appreciate it.	7/25/2023 6:05 PM
21	Everything was perfect.	7/25/2023 6:03 PM
22	I'd love for there to be consideration of holding the Curriculum Institute up north or alternating locations. Riverside isn't the easiest location to get to for many of us. I understand next year is in Pasadena - but would love if it could alternate so the costs would also somewhat alternate.	7/25/2023 5:46 PM
23	I love the hyflex opportunity because I think it makes it possible for more people to attend. While I do prefer in person whenever possible, there are members of our team who could not have attended if there was only one modality. I know it takes more work/extra time to make sure that the technology is working, so thank you for all of that! For next year, I wonder if it would be possible for presenters to test the equipment a few minutes before the sessions start so that the start time is as listed? In a few cases this happened, but in most there was a delay of 5-10 minutes (in one case even more) in getting started because of checking the equipment. Thank you for all of the amazing work to get this important professional development opportunity out there for our system (and our students!).	7/25/2023 5:25 PM
24	I'm having significant trouble getting evidence of sessions attended to submit to my Dean. It would be great if that process was easier.	7/21/2023 6:59 AM

## Q21 Would you attend another ASCCC event that uses the Zoom Events platform?

Answered: 47 Skipped: 22

ANSWER CHOICES	RESPONSES	
Yes	70.21%	33
No	2.13%	1
Maybe	27.66%	13
<b>TOTAL</b>		<b>47</b>

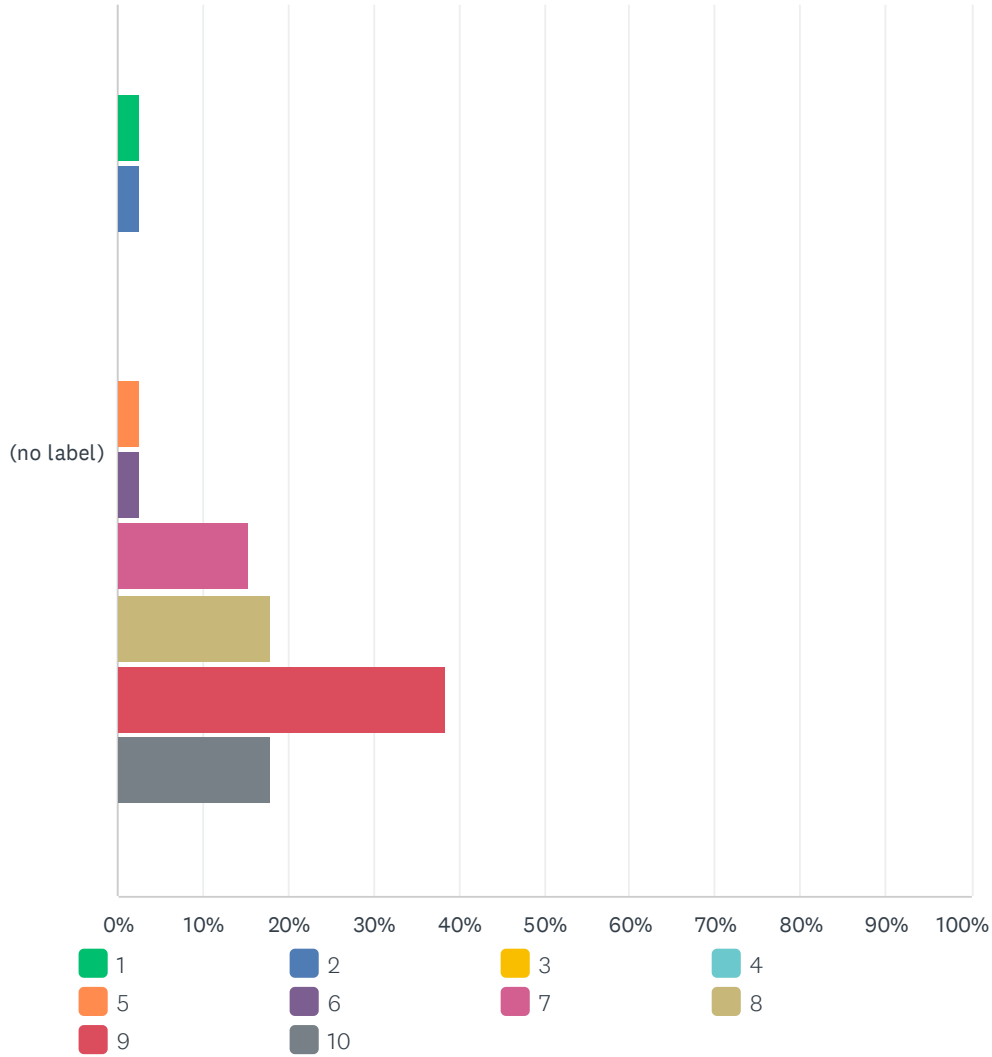

#	ADDITIONAL COMMENTS:	DATE
1	If it is fully virtual	8/1/2023 1:13 PM
2	Zoom was better implemented for this event, but I liked the platform used last year better.	7/26/2023 7:34 PM
3	If entirely virtual. Hard to hear the audio from live mics in a room.	7/26/2023 3:01 PM
4	I personally had no technical issues using Zoom Events - pretty seamless experience for me	7/26/2023 10:11 AM
5	in person is preferred for me as it allows for minimal distraction and more engagement with my peers and the presenters	7/26/2023 9:56 AM
6	But I would recommend that those presenting via Zoom assure that they are visible on the screens during their presentations. There were several that were not. .	7/26/2023 8:15 AM
7	I may look at if offered in-person, and depends on funds available to attend. Definitely yes for small events. Zoom is great for those on a budget.	7/25/2023 9:56 PM
8	Having a specific person responsible for monitoring Zoom would help, I think. (Where is the camera facing? Is it on? Is the mic on? Can remote participants participate?)	7/25/2023 9:05 PM
9	In-person sessions are far more valuable	7/25/2023 7:59 PM
10	I'd only attend a Zoom event if it was a quick one-hour intensive. I wouldn't attend a longer conference online. There were so many tech issues on Zoom at this conference that I wouldn't be assured that the experience would be the same. I know I had a much better and richer experience in person than my colleagues who attended online (they had problems being heard when unmuting for a question, static-filled presentations, etc.).	7/25/2023 6:07 PM

Q22 On a scale of 1-10, how would you rate your user experience of the Zoom Events platform (the site we used to host the Curriculum Institute event)? 1 = poor, 10 = excellent

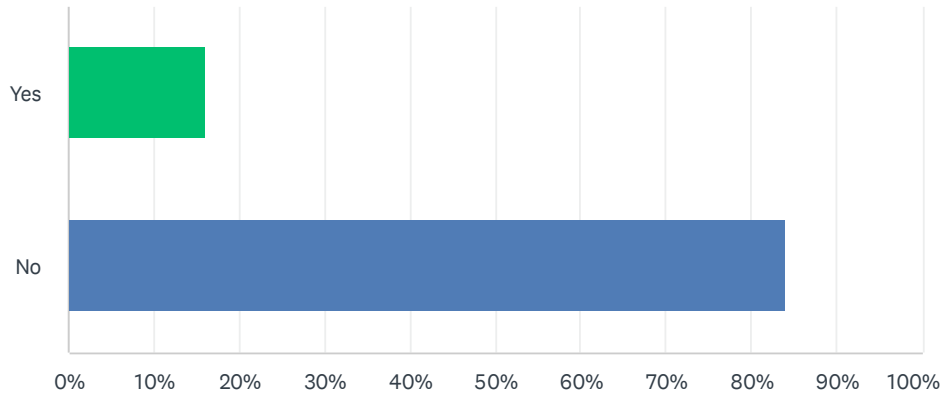

Answered: 39 Skipped: 30

	1	2	3	4	5	6	7	8	9	10	TOTAL	WEIGHTED AVERAGE
(no label)	2.56% 1	2.56% 1	0.00% 0	0.00% 0	2.56% 1	2.56% 1	15.38% 6	17.95% 7	38.46% 15	17.95% 7	39	8.13
